Minimum	Day	Week	4-Week
---------	-----	------	--------

Sanders

Clark 17" Floor Maintainer
Silver-Line SL-8 Drum Sander
Sand Paper Adaptor
Pad Driver

Minimum	Day	Week	4-Week
---------	-----	------	--------

Concrete & Masonry Equipment

Selection Guide

Concrete and masonry work involve many types of equipment. Tell us as much as you can about your job, so we can recommend the most efficient & productive equipment.

The Job: Let us know what kind of work you need to do. Does the job involve new construction, remodeling or demolition? Are you working indoors or outdoors? Are you working with walls, footings, foundations or slabs? What is the size & thickness? How much concrete will you be handling? What kind of finish will be required? If demolition is involved, what are you breaking up? What size is it? How old is it? Are you going to repour concrete? Are you working in a confined area?
