**Material Handling Equipment**

**Selection Guide**

Let us know about the material you're handling. We have a tremendous selection of equipment, ranging from handtrucks to a 10,000 lb. forklift.

**Material:** What are you working with? What does it weigh? What are the physical dimensions? How far do you have to move the material? How high do you have to lift?

**Work Area:** Are you working inside or outside? What kind of surface are you working on? Slab floor, dirt or asphalt. Is it level? Are there any weight, size or environmental restrictions? Is the area confined? Are there any obstacles?
