Pyramex® Safety Products

V2G-XP Clear Dual Lens

- TPU frame features excellent resistance to cold and heat and provides a perfect facial seal.
- Special indirect ventilation system located at the top and bottom of frame allow air flow & heat release.
- Includes a wide adjustable elastic strap with quick release system for secure fit.
- Optional RX-insert frame secures in the inner side of frame.
- Exceeds ANSI Z87.1 High Impact Requirements
- CE EN166 Certified
- CAN/CSA Z94.3-07
- Meets MCEP GL-PD 10-12 Ballistic Standards
- AS/NZS 1337

Specifications:
- General purposes for indoor applications that require impact protection.
- Anti-Fog Lenses
- Dual Pane lens combines optically correct polycarbonate outer lens combined with interior acetate lens to create a Thermo Lens System which traps and isolates high heat or extreme cold in between the lens system and away from the face.
- The Thermo Lens System provides excellent resistance to fogging caused by the temperature difference inside & outside of this eye- wear.
- The outside and inside of the lens is coated with H2X™ Anti-fog Technology for even more resistance to fogging, due to extreme temperatures.
- An outer polycarbonate lens protects against the environment, while an inner acetate lens is designed to prevent fogging.
- Provides 99% protection from harmful UV-A and UV-B rays.

**Clear Visor PC For General Purpose**

*For HG-10127061 V-Gard®*

- Designed for use with V-Gard Frames and V-Gard Headgear
- For many visor versions the sides are contoured towards face for a closer fit and improved resistance to impact and splash hazards
- Can be worn with helmet-mounted ear muffs
- Superior UV protection
- 2 thickness versions depending on your needs and budget
- Available with Antifog/Antiscratch coatings
- Special versions, called nitrometers to adapt V-Gard Retractable or Standard Chin Protector
- Visors with green tint (p/n 10115842 & 10115843) help alleviate eye strain and fatigue by reducing excessive glare, especially in outdoor working conditions. Not for use where a Shade Infrared (IR) visor is required.

- Lighter and softer facepiece is made of clear blue thermoplastic rubber
- AnthroCurve™Sealing Surface instantly conforms to each wear's unique facial characteristics
- MultiFlex® system equalizes pressure on the face-seal area, while delivering exceptional stability, so the respirator will not collapse during wear
- Two-piece neckstrap
- The Advantage Respirator Cartridges provide lightweight, low-resistance protection from organic vapors
- P100 Flexi-Filter® Pads fit well under a welding hood

Mechanix Wear®
Pro-Fit™ Series 3.0 Gloves
Black

- Easy entry, Airprene™ cuff provides comfort
- Molded TPR (Thermal Plastic Rubber), with hook and loop closure, secures fit.
- Two-way, form-fitting, mesh top, with stretch Tricot lining, stretches, increasing comfort, fit and breathability.
- Anatomically designed TPR molded rib pattern provides pliable layer of flexible protection on back of hand and fingertips
- ProFit™ stretch panel, allows extra flexibility between top of hand and thumb.
- PVC Silicone areas on thumb and fingers aid in handling of tools and act as anti-slip patches.
- Dura-fit™ synthetic leather palm offers maximum comfort, durability and breathability like leather.
- Two-piece, EVA foam-padded, anatomically designed palm protects against impact.
- Heavy-duty, Stretch-Tech panels in between fingers provide flexibility and breathability.
- Thermal Plastic Rubber (TPR) pull-tab with molded grips, at wrist, assists with easy hand entry.

Mechanix Wear®
CG Framer Gloves
• Fingerless index and middle finger provide sensitivity and dexterity when handling nails and small items
• Leather finger panels and double-layer leather fingertip protection for ring finger and pinky protect against abrasions and impact
• Anatomically cut padded leather palm protects against abrasion and fatigue while allowing maximum grip and mobility
• Padded top and mesh cuff provide safety and ensure comfort in hot, humid conditions
• Hook-and-loop closure allows comfortable range of motion using tools and wearing a watch

Mechanix Wear®
CG Impact-Pro Gloves
• Flexible molded rubber ribbing on top of hand and knuckles supports and protects hands
• Double-density palm padding relieves pressure points
• Clarino® MWX-2 synthetic leather construction maximizes durability, breathability and comfort
• Goatskin leather added to high wear areas
• Leather protection in thumb, finger and palm areas
• Double-layer leather protection for thumb, index, middle and ring fingers
• Embossed, molded neoprene wrist closure
• Hook-and-loop closure allows comfortable range of motion using tools and wearing a watch

Mechanix Wear®
CG Impact-Pro Gloves
Super Duty Series
• The molded Neoprene® wrist closure conforms to your wrist better providing a comfortable secure fit
• Designed with a low profile wrist cuff that utilizes a hook and loop closure that allows for a comfortable, full range of motion while using tools or wearing a watch
• Clarino® MWX-2 synthetic leather is used throughout the glove to maximize durability, breathability and comfort

Mechanix Wear®
Full Leather Mechanic Gloves

- Full leather palm and fingers provide extreme durability
- Multi-zone padded palm reduces hand fatigue from shock and vibration
- Dual layer thumb, index, and middle finger-tip panels for extra durability
- Thermal Plastic Rubber (TPR) protects your knuckles, fingers, and metacarpals from impact
- Low profile cuff for full range of motion
- Machine washable leather

Mechanix Wear®
Zone 2 Cold Weather Glove

- Comfortable and durable 2-way stretch fleece ensures that perfect Mechanix Wear fit
- Concealed interior stitching greatly improves comfort and durability
- Our specially designed wind resistant lining keeps cold and cutting wind at bay while maintaining the flexibility and breathability of the glove
- A snug fit improves hand dexterity and gives this glove a secure and comfortable feel
- For working conditions down to 0 degrees

Mechanix Wear®
Summer 2 Pack Medium
Original Fast Fit

- 2 Pack The Original™ and the FastFit
- TPR Closure with a hook and loop provides a secure fit
- Reinforcement panels in high wear areas for increased durability
- Clarino synthetic leather meets two way stretch spandex for the ultimate in comfort and dexterity
- Snug fitting cuff keeps glove in place while offering easy on and off flexibility.
- Two piece palm for comfortable fit.

Mechanix Wear®
Winter Armor Glove

- Accordion knuckle with EVA foam padding protects against impacts
- Nylon shell with a wind-resistant lining protects against the elements
- Rubberized palm material with secondary rubberized panels for grip and durability
- Rubberized reinforcement panels for increased durability
- Hook-and-loop closure for a secure fit

Mechanix Wear®
Mechanix Fast Fit Gloves

- Elastic cuff provides easy on/off flexibility
- Durable and dexterous synthetic leather palm
- TrekDry® material top helps keep hands dry and comfortable
- Anatomically designed two-piece palm eliminates material bunching for a snug fit
- Machine washable

Mechanix Wear®
Original Material 4X Gloves

- Stretch spandex material ensures a comfortable fit
- TPR closure with hook and loop provides a secure fit
- Reinforcement panels in high wear areas for increased durability
- Material 4X offers superior wear, higher abrasion resistance and greater puncture resistance than leather

Mechanix Wear®
Original Covert Glove

• Innovative, wrap-around rubber molded wrist closure forms better to wrist and improves comfort
• High dexterity fingertips and two-ply thumb reduces wear and increases protection
• Uniquely ribbed 2-way stretch spandex top increases stretch and flexibility for an even better fit
• Machine washable
• MFG Brand Name: Mechanix Wear

Mechanix Wear®
Grip Glove

• Palm: Simulated Leather
• Dual-layered Silicone palm with circular print pattern affords maximum grip on slippery surfaces
• Synthetic leather fingertip reinforcements provide strength and protection
• Two-way stretch Spandex padded back ensures a proper fit every time
• Two-ply fingertips and thumb reduce wear and increase protection
• Streamlined elastic cuff with hook and loop closure ensures that debris doesn’t enter glove

Mechanix Wear®
M-Pact II Glove

• Palm: Simulated Leather
• Used by more professionals that demand the extra protection
• Heavy-duty work horse glove that offers excellent grip and protection
• Double-layer synthetic leather palm with anatomically die-cut foam padded top for comfort and protection
• Spandex stretch wrist panel provides maximum adjustability, machine washable
• Thermal plastic rubber protection on fingers and top of glove for added protection

Mechanix Wear®
M-Pact 3 Knuckle Protection

• Palm: Simulated Leather
• Molded Kevlar knuckle shell shields impacts for optimum protection
• Heavy Duty stretch panel for added flexibility
• Anatomically shaped, die-cut, multi-layer synthetic leather palm with EVA interior foam padding
• Padded, rubberized sure grip palm heel material added for extra protection
• Finger and thumb grippers are made from non-slip rubberized sure grip material, improving grip and control

Mechanix Wear®
M-Pact Gloves
Black and Red

• Impact Guard protects first knuckle with EVA foam covered by rubberized grip material TPR (Thermal Plastic Rubber) on the knuckle and fingers protects against impacts
• Trek Dry stretch fabric on the back of the hand provides ventilation and wicks moisture
• TPR (Thermal Plastic Rubber) hook and loop closure for a secure fit
• Rubberized tacky grip material on the thumb and index finger provides extra gripping power
• Second layer of material in high wear areas
• Second layer of material with 2mm of Poron XRD for impact and vibration absorption
• Durable synthetic leather palm

Intended Uses:
• Tactical/Special Operations
• Shooting
• Mechanic’s work
• Heavy equipment maintenance and more...

Protective Industrial Products
Seamless Knits for General Duty by ATG®
Nitrile Dotted Palm
Maxiflex™

- MaxiFlex® Ultimate by ATG®, black micro-foam nitrile coated palm & finger tips, 15 gauge gray seamless knit nylon with Lycra® liner.
- Ultra cool and very comfortable to wear, breathable coating keeps hands cool and dry
- Excellent dexterity, sensitivity and tactility
- Designed to produce minimal lint and dust
- Minimal penetration (strike through) keeps the liner soft on the inside of the glove
- Silicone free.

Applications:
- Used in applications which require a high degree of dexterity and sensitivity, especially where grip is important, such as handling small oily parts and components, general assembly, machining, micro-engineering, automotive components, painting, horticulture.

Cut Protection in Oily Environments
Cut Resistant Level 3

- Micro-Foam Nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance
- Knit Wrist helps prevent dirt and debris from entering the glove
- Innovative Fibers - Unique high performance yarns and fibers that offer cut protection while maintaining high levels of comfort
- Reinforcement - Between the thumb and forefinger, improves cut resistance and extends glove life in an inherently weak area
- 360° Breathability - Patented micro-foam nitrile coating offers 360° breathability making it the most breathable cut resistant glove on the market
- Form, Fit and Feel - Mimics the "hand at rest", reducing hand fatigue and increasing comfort
- Latest Knitting Technology - Utilized to produce smooth and rounded fingertips, improving fingertip sensitivity
- Consistent Liner Penetration - From the nitrile, leaving only the soft liner resting against the skin
- Optimized Grip - Delivered through our micro-cup finish, allows for a controlled grip
- All ingredients used in the manufacturing and construction of this product are compliant with the REACH legislation
- This glove has been laundered prior to final packaging making it clean and safe for use
- The Oeko-Tex® Association has evaluated and certified this product as skin safe from the second it comes into contact with the skin
- The Skin Health Alliance has awarded professional dermatological accreditation following review of the scientific dossier behind this product

Hi-Vis Acrylic Glove, Latex Power Grip
MicroFinish

- Seamless construction for a comfortable fit
- Acrylic gloves provide economical cold weather protection
- Latex "MicroFinish" coating provides a superior grip in dry, wet and oily conditions by reacting like tiny suction cups that attach themselves firmly to the material being handled
- Knit wrist helps prevent dirt and debris from entering the glove
- Hi-Vis coloring makes this product very easy to see
- Excellent thermal insulation
- Quickly evaporates moisture from the skin
- Extra softness for non-chafing comfort
- Launderable for extended life and to reduce replacement costs
- Cotton color binding denotes sizing
- Hi-Vis Orange Acrylic Terry Shell

Protective Industrial Products
MaxiDry Ultra Lightweight Nitrile Grip
MaxiDry®

- Seamless string knit shell is comfortable and flexible
- Foam Nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance
- Knit Wrist helps prevent dirt and debris from entering the glove
- Liquid Repellence - Increased resistance to oils via ATG’s LiquiTech® technology platform
- Ultra Lightweight- Synthetic coating combined with an industry leading super light seamless knit liner provides excellent comfort, sensitivity, fit and dexterity
- Locking Cuff - Ensures the glove doesn’t slip on the hand. An exclusive elasticated support in the wrist area provides a “locking” effect for a close and snug fit
- Optimized Grip - The micro-cup non-slip grip finish allows for a controlled and superior grip in oily and wet applications. The non-slip grip is only applied where it is actually needed - in the palm area - to ensure flexibility isn’t compromised
- All ingredients used in the manufacturing and construction of this product are compliant with the REACH legislation
- This glove has been laundered prior to final packaging making it clean and safe for use
- The Oeko-Text® Association has evaluated and certified this product as skin safe from the second it comes into contact with
- The Skin Health Alliance has awarded professional dermatological accreditation following review of the scientific dossier behind this product

Rain Suits

CLC®
PVC Rain Suit
3-Piece - Yellow 0.35mm
PVC / Polyester Backing

- Jacket, bib pants, detachable hood.
- Full cut sizes to fit over clothing.
- Adjustable overall straps.
- Rear mesh vents for breathability.
- Bib style pants with snap fly front.
- Constructed with heavyweight PVC stays in place enhancing comfort and worker satisfaction.
- Lycra® edging moves with you preventing uncomfortable rubbing or chafing enhancing comfort and mobility.
- The industry’s first and only one-handed quick connect buckles make putting on, adjusting and removing the harness a snap and provide a memory fit – adjust the harness once and it stays that way.
- Wrap around no-tangle design slips on like a vest, making it quicker and easier to put on while providing ventilation, comfort, padding and security.
- Back D-ring for connection to fall protection system.
- Adjustable non-slip chest strap with intuitive quick connect buckle.
- Torso buckles adjust easily, yet hold the straps firmly in place and complete the 5-point adjustment system.
- Soft, lightweight polyester webbing is strong without feeling stiff or coarse.
- Coated hardware for corrosion resistance.
- Meets or exceeds all applicable industry standards including OSHA and ANSI including the stringent ANSI Z359.

DBI/SALA® Full Body Harness
Construction Style
ExoFit XP™

- The industry’s first “truly washable” harness with removable padding.
- State-of-the-art 3-D mesh lining wicks moisture keeping you cool and delivering all-day comfort.
- Unique spring loaded “stand-up” dorsal D-ring ensures fast, easy and safe connections
- Superior “X” design padding wraps around the wearer for the ultimate in no-tangle donning
- Ergonomic design incorporates shoulder, hip and leg padding that always stays in place enhancing comfort and worker satisfaction.
- Soft edging moves with you preventing uncomfortable rubbing or chafing enhancing comfort and mobility.
- One-handed quick connect buckles make putting on, adjusting and removing the harness a snap and provide a memory fit – adjust the harness once and it stays that way.
- Built-in belt loops to support a SALA belt or one of your own.
- Torso buckles adjust easily, yet hold the straps firmly in place and complete the 5-point adjustment system.
- Soft, lightweight polyester webbing is strong without feeling stiff or coarse.
- Coated hardware for corrosion resistance.
- Meets or exceeds all applicable industry standards including OSHA and ANSI including the stringent ANSI Z359
- Buckle Type: Quick Connect

DBI/SALA®
Protecta First™ Compliance-in-a-Can Roofer’s Kit

Kits Includes Items listed below:

Protecta First Harness:
- 5-point harness model Full Harness
- 1 - Dorsal D-ring on back
- Pass-thru buckle leg & chest closures
- Universal Sizing
- Zinc plated stamped steel
- Minimum tensile strength 5,000 lbs.
- Meets or exceeds OSHA 1926 & ANSI Z359.1-1998 requirements
- 420 lbs. weight limit

FIRST™ Reusable Roof Anchor (AJ730A):
- 1 per bucket
- 3 lbs. total weight of bracket
- Includes 20, 16D nails for single use
- Painted steel construction
- Forged allow D-ring
- 5,000 lb. anchorage point—when properly secured
- Meets or exceeds OSHA 1926 & ANSI Z359.1-1998 requirements
- 5.6 lbs.

FIRST™ Blended Rope Lifeline (AC27352):
- 50’ length 5/8” diameter, polyester sheath with polypropylene core
- 5,600 lbs. tensile strength
- Zinc plated stamped steel hook
- 5.6 lbs.
- Meets or exceeds OSHA 1926 & ANSI Z359.1-1998 requirements
- 1 in bucket

FIRST™ Reusable Roof Anchor (AJ730A):
- 5,000 lb. anchorage point—when properly secured
- Forged allow D-ring
- Painted steel construction
- Includes 20, 16D nails for single use
- 3 lbs. total weight of bracket
- 1 per bucket

DBI/SALA®
Shock Absorbing Lanyard
EZ Stop® II

- 1-3/4” Kevlar® webbing for extra protection from high heat
- 100% tie-off with aluminum hook (2-1/4” opening) at both leg ends
- Soft cover shock absorber for comfort
- Limits arresting forces to 900 lbs. or less
- Meets or exceeds all applicable industry standards including OSHA, ANSI and the stringent ANSI Z359

DBI/SALA®
Force2™ Shock Absorbing Lanyards

- Components can be changed in the field
- Smallest shock absorber in the world
- Thinnest-ever webbing for reduced weight and bulk
- Lightest and strongest rebar hooks on the market
- Hi-10™ Vectran Energy Management Material
- Single-leg with snap hooks at ends x 6 ft.

Part # | Size (ft.)

DBI/SALA®
Tie-Back Shock Absorbing Lanyard
WrapBax™

- For tie-back use—eliminates the need for a separate anchorage connector, reduces inventory & cost, simplifies inspections & worker training & improves compliance.
- Single-leg lanyard with WrapBax™ hook at one end, 6 ft. in length
- 5,000 lb. hook capacity from every direction including the gate provides 360 degree protection
- Heavy-duty webbing provides five times more abrasion resistance, making it ideal for tying off on rough surfaces
- Ergonomic pistol grip design makes holding and operating the hook easy, it’s perfectly formed to fit a gloved or non-gloved hand.
- One-handed operation via an industry preferred easy-to-use hook action found standard on all DBI patented snap hooks
- Pinch-less design allows you to open and connect the hook without thumbs or fingers getting in the way - no pinching of fingers or fumbling of latches even while wearing gloves
- Web connection at top of hook eliminates dangerous cross-hook loading and positions the hook properly for easy connection
- Dead-bolt style locking mechanism provides the ultimate in strength, protection and ease-of-use for added security during rigorous tie-back use
- Built-in web guide directs the webbing into the open hook for simple and quick connection and use
- Unique hook design makes it easily differentiated (size, shape and color) from standard snap hooks to eliminate confusion on the jobsite for added safety
- Forged alloy steel zinc plated construction for the ultimate in strength and corrosion resistance for the toughest, harshest environments
- Limits arresting forces to 900 lbs. or less
- Meets or exceeds all applicable industry standards including OSHA, ANSI and the stringent ANSI Z359

**DBI/SALA® EZ-STOP® II Lanyard, 100% Tie-Off**

- 1” webbing
- Twin leg 100% Tie-off.
- Easy to use Self Locking Snap Hooks at ends & center
- Shock absorber has soft cover.
- 6 ft. length.
- 900 lbs. or less in limiting fall arresting forces.
- Meets or exceeds all applicable industry standards.
- Meets OSHA, ANSI and ANSI Z359 standards.
- 3.9 lbs.

**Part #**

- **1240406**

**DBI/SALA® ShockWave2™ Lanyard**

- Aluminum Rebar Hooks at Leg Ends
- Expands to 6 ft. and contracts to 4-1/2 ft. in reaction to your movement
- Reduces trip fall hazards, dragging and snagging for complete freedom of movement
- Twin-leg 100% tie-off style helps you remain connected at all times
- Easy to use self locking snap hooks at center and aluminum hooks (2-1/4” opening) at the leg ends
- Abrasion resistant tubular webbing for durability and longevity
- Impact indicator allows user to visually inspect unit for a fall
- 6 ft. in length
- Limits arresting forces to 900 lbs. or less
- Meets or exceeds all applicable industry standards including OSHA, ANSI.

**Part #**

- **1244409**

**DBI/SALA® Protecta PRO™ Stretch Shock Absorbing Lanyard**

- Rebar Hooks
- Polyester tubular web that expands to 6 ft. (1.8m)
- Contracts to 4.5 ft. (1.4m)
- 3,600 lb. gated hooks
- an energy absorbing design that limits fall arrest forces to 900 lbs. or less.
- Double-legs have flat steel rebar hooks at leg ends x 6 ft. (2.25” Gate Openings)

**Part #**

- **1340161**

**DBI/SALA® Protecta 100-Percent Shock Absorbing Lanyard**

- 6-Feet, 3 Hooks, 310-Pound Capacity, Red, 1-Pack
- 3,600 pound gated hooks
- Durable construction
- Lightweight designs
- Limits fall arrest forces to 900 pounds or less

**Part #**

- **1340180**

**DBI/SALA® Protecta Shock Absorbing Lanyard**

- 6-Feet, 2 Snap Hooks, 310-Pound Capacity
- 3,600 pound gated hooks
- Durable construction
- Lightweight designs
- Limits fall arrest forces to 900 pounds or less

**Part #**

- **1341001**

**DBI/SALA® Nano-Lok™ Self Retracting Life Line**

- Attaches directly to back of most harnesses—no separate carabiner required
- Installs to web, leaving dorsal D-ring open for other equipment or rescue
- Design provides snug fit to worker’s back—eliminates nuisance “flopping”
- Swivelling Anchorage Loop Limits lifeline twisting for smoother operation
- Automatic Quick-Activating Arrestor stops falling worker within inches - reduces fall distance & average arresting forces to 900 lbs or less
- Extremely Compact & Lightweight @ 1.6 lbs
- 3600 lbs gate on the carabiner
- Rated for 420 lbs weight capacity for operator & tools
- i-Safe Equipped
- Impact Indicator
- 6 foot Length
- Webring
- 420 lbs Capacity
- Single Lege Housing Connections

**Part #**

- **3101225** Aluminum Carabiner 2.26 lbs
- **3101228** Steel Locking snap hook 2.35 lbs

DBI/SALA®
Vertical Debris Netting 4’ x 100’

- Protects workers near building edges by serving as a guardrail
- 48” high X 100’ long with 55 EZ clips and 22 tie down plates (other sizes available)
- Eliminates need for mid-rail and toe board
- Easy to install, remove, relocate, and store
- Contains debris using a tight mesh
- Acts as a wind barrier
- Provides a visual bright orange barrier
- Provides protection to public
- Significant savings over wood or cable with toe boards
- System comes complete with everything needed, vertical netting, zip clips, for easy and secure net installation and tie-down plates to replace toe-boards and firmly set net into place
- Meets NFPA 701 fire retardant requirements
- Meets OSHA 1926.500 & 1926.502 Guardrail requirements

Fire Extinguishers

Kidde®
Dry Chemical Fire Extinguisher
for Vehicles & Trailers
PRO2.5 MP

- Ideal for vehicles, apartments and trailers
- Standard commercial design
- Compact design
- Strong aluminum valve body for standard commercial applications
- Designed to meet most commercial and industrial specifications
- Seamless aluminum and steel cylinders have chip resistant epoxy finish
- Reliable pressure gauge for fast and easy pressure checks
- Superior agent provides higher UL ratings than other agents in comparable sizes
- Handle made from pressed heavy gauge metal for added strength
- Fits all standard cabinets
- Mar-resistant pictogram mylar label
- Operable temperature range: -40°F to 120°F (-40°C to 48°C)
- Brackets: Units are equipped with a wall hanger for mounting in standard applications
- Heavy duty vehicle brackets are available for high traffic and vibration areas
- UL Rating: 1-A:10-B:C
- Effective Against Class: ABC
- Contents: 2.60 lbs.
- Filled: 3.90 lbs.
- Diameter: 3.30”
- Height: 15”

Part # 466227-01K

Kidde®
Dry Chemical Fire Extinguisher with Strap
for Common Industrial
PRO5 MP

- Ideal for common industrial use: office, hotels, schools
- Strong aluminum valve body for standard commercial applications
- Designed to meet most commercial and industrial specifications
- Seamless aluminum and steel cylinders have chip resistant epoxy finish
- Reliable pressure gauge for fast and easy pressure checks
- Superior agent provides higher UL ratings than other agents in comparable sizes
- Handle made from pressed heavy gauge metal for added strength
- Fits all standard cabinets
- Mar-resistant pictogram mylar label
- Operable temperature range all models: -40°F to 120°F (-40°C to 48°C)
- Brackets: Units are equipped with a wall hanger for mounting in standard applications
- Heavy duty vehicle brackets are available for high traffic and vibration areas
- 5lb. model exceeds 2-A:10-B:C compliance
- UL Rating: 3-A:40-B:C
- Effective Against Class: ABC
- Contents: 5 lbs.
- Filled: 7.90 lbs.
- Diameter: 4.50”
- Height: 16”

Part # 466112-01K

Kidde®
Dry Chemical Fire Extinguisher
for Industrial Applications
PRO10 MP

- Ideal for industrial applications such as hospitals, universities, warehouse and plant locations
- Commercial design meets industrial requirements
- Strong aluminum valve body for standard commercial applications
- Designed to meet most commercial and industrial specifications
- Seamless aluminum and steel cylinders have chip resistant epoxy finish
- Reliable pressure gauge for fast and easy pressure checks
- Superior agent provides higher UL ratings than other agents in comparable sizes
- Handle made from pressed heavy gauge metal for added strength
- Fits all standard cabinets
- Mar-resistant pictogram mylar label
- Operable temperature range all models: -40°F to 120°F (-40°C to 48°C)
- Brackets: Units are equipped with a wall hanger for mounting in standard applications
- Heavy duty vehicle brackets are available for high traffic and vibration areas
- UL Rating: 4-A:60-B:C
- Effective Against Class: ABC
- Contents: 10 lbs.
- Filled: 17 lbs.
- Diameter: 5.12”
- Height: 21.18”

Part # 466204K
Kidde®
Dry Chemical Fire Extinguisher
for High Hazard Industrial
PRO20 MP

- Designed for high hazard industrial applications
- Highest UL rating for multi purpose models
- Seamless steel cylinder is superior to welded designs
- Strong aluminum valve body for standard commercial applications
- Designed to meet most commercial and industrial specifications
- Seamless aluminum and steel cylinders have chip resistant epoxy finish
- Reliable pressure gauge for fast and easy pressure checks
- Superior agent provides higher UL ratings than other agents in comparable sizes
- Handle made from pressed heavy gauge metal for added strength
- Fits all standard cabinets
- Mar-resistant pictogram mylar label
- Operable temperature range all models: -40°F to 120°F (-40°C to 48°C)
- Brackets: Units are equipped with a wall hanger for mounting in standard applications.
- Heavy duty vehicle brackets are available for high traffic and vibration areas
- UL Rating: 10-A:80-B:C
- Effective Against Class: ABC
- Contents: 18 lbs.
- Filled: 30 lbs.
- Diameter: 7”
- Height: 21.60”

Flammable Liquid Storage
Justrite®
Red Safety Cans
Type I for Flammable Liquids

- Compliant and economical Justrite Type I safety cans reduce fire risks and make everyday use of flammables easier and safer.
- Protection features include a 3.5" long chemical resistant stainless steel flame arrester that stops flashback ignition, provides faster liquid flow, and offers exceptional durability.
- The self-venting, self-closing leak-proof lid prevents ruptures from pressure buildup and controls vapors and spills.
- Warning label includes an extra large ID zone for user labeling of contents to avoid misuse, reduce the potential for incompatible mixtures, or may be used to designate department or individual owner.
- Made of galvanized steel with a tough powder paint finish, can capacities 1 gallon (4L) and above have ample head space to accommodate oil additives.
- Meets OSHA and NFPA. FM approved, UL/ULC listed, Carb Compliant, TÜV certified.

Stainless Steel Flame Arrester:
- Precision arrester screen stops flashback ignition to reduce fire risks
- Superior chemical resistance
- Excellent corrosion protection
- Long length for safe insertion of gas nozzle
- Faster liquid flow

Large ID Zone:
- Identify contents to reduce misuse or incompatible mixtures
- Designate department location, work shift, crew or individual user

Justrite®
Yellow Safety Cans
Type II
for Flammable Liquids - AccuFlow™

- Compliant Type II steel safety cans offer additional convenience with two openings at the top
- One opening is equipped with a flexible metal hose for smooth, accurate pouring into small apertures—The hose also provides a bonding path to a receiving vessel
- A second opening, positioned behind the handle, is used for filling
- All Type II Cans have a swinging handle to ease carrying a full, heavy can
- During pouring, Justrite’s unique design uses the weight of the liquid to counterbalance the pressure required to open the spout
- Both openings are equipped with dual-density flame arresters which reliably dissipate heat to prevent flashback ignition
- Both openings self-close to prevent spillage and the rear opening automatically vents between 3 and 5 PSIG to guard against pressure buildup at elevated temperatures and potential explosion
- Heavy-duty, coated steel with reinforcing ribs and tough powder paint finish offers exceptional on-the-job durability
- All cans meet OSHA and NFPA, are FM Approved and UL/ULC Listed

Yellow Safety Cabinets
Manual & Self-Closing Door
Flammable Liquids Storage

- For safe storage organization of your flammable liquids.
- Save traveling time, minimize employee exposure and seal off your flammables when temperatures get too high.
- 18-gauge construction with double-wall insulating air barrier
- Three point lock
- Four leveler feet,
- 2” leakproof door sills
- Dual-vents for removal of hazardous vapors
- Four steel tabs attach adjustable shelves to customize your cabinet for storing a variety of containers
- Models with self-closing doors have fusible links that melt at 165°F to automatically shut in case of fire.
- Yellow powder coat paint finish
- Cabinets comply with OSHA and NFPA Code 30 specification
- 2 Door, Manual

Surface Shields
Surface Shields, Inc.
Clean Mat
Blue

- CLEAN MAT is a polyethylene film mat with a tacky surface that removes dust and dirt from footwear and prevents it from being tracked.
- Each mat contains 30 sheets which are tabbed for easy removal of each layer.
- Clean mat stays firmly in place and is easy to use and dispose off.
(Do not adhere to carpeted surfaces)

Surface Shields, Inc.
Floor Shield
Reverse Wound

- Clear, self adhering protective film for all types of carpeting.
- Uniquely formulated adhesive system adheres to all carpet substrates.
- Special blend of polyethylene is highly resistant to tears or punctures.
- Reverse wound for easy application.
- Great protection during remodeling, painting, moving, model home tours and parties.

Surface Shields, Inc.
Floor Shield
Multi-Purpose

- FLOOR SHIELD™ is a self-adhering protective film for hard surfaces, such as tile, vinyl, VCT, laminates, marble, granite, and factory-finished hardwood.
- Available in many sizes, it also can be used to help prevent damage to tubs and counter tops.
- A true multi-purpose product, it is ideal for use during construction, remodeling, plumbing and electrical work and painting.
- Floor shield may be applied for up to 45 days.
- Reduce damage claims and cleanup time
- Protects under toughest conditions
- Resists ripping and tearing
- Does not shift like paper
- Easy application and removal

Surface Shields, Inc.
Shoe Covers
Slip-On

- Protect your floor or carpet from dirt, scuffs, and heel marks with our new, slip-on SHOE COVERS.
- Easy to use shoe covers are perfect for general construction work, open houses, as well as during inspections.
- Shoe covers are lightweight and disposable.
- One size fits all.
- Polypack (10 polypacks per case)

**Master Lock® Cable Lock Out**  
*Safety Series™*

- Patented 1/8” (3.2mm) diameter x 6’ (1.83mm) pull-tight cable adjusts for a secure fit every time. Also available from 2 to 50 foot long.
- Integrated safety hasp and cable is ideal for multiple circuit breaker panel and side-by-side gate valve lockouts
- Tough, flexible multi-stranded steel cable is insulated with a clear plastic coating.

**Master Lock® Lockout I.D. Tags**  
*“Do Not Operate” Safety Series™*

- Heavy-duty tags comply with OSHA Lockout/Tagout Standard
- Rugged, stain and mildew-resistant styrene material
- Customize with name, department, expected completion
- Brass grommet withstands up to 80lbs. of pullout force
- Meets OSHA requirements
- 12 tags per bag

**Master Lock® Photo ID Tags**  
*Safety Series™*

- Provides a visual representation of the authorized employee.
- 3.2 in. (81.3mm) Wide x 5.8 in. (147.3mm) High English self-laminating tags
- 3/8 in. (9.5mm) diameter brass grommet accepts all Master Lock and American Lock safety padlocks and hasps.

**Master Lock® Snap on Assorted Hasps**  
*Safety Series™*

- Convenient storage and carrying pouch
- Includes one 410 RED Padlock on 7C5RED Circuit Breaker Padlock, one 420 Lockout hasp 491b grip tight lockout and two 492B grip tight devices.
- Includes one bag of 12-497A danger tags

**Master Lock® Reusable Tags**  
*Safety Series™*

- Patented plug lockout grips prongs of 110-120 volt plugs.
- Fits two prong plugs with and without ground.
- Use with you existing lockout padlocks or lockout hasps.

**Master Lock® Notice Tags**  
*Safety Series™*

- Lasting Performance in the toughest environments, Bright graphics, UV resistant, chemical resistant, abrasion resistant, water resistant.

**Specifications:**
- Color: Black / Blue on White
- Length: 5-3/4”
- Material: Polypropylene
- Type: Safety Tag
- Width: 3”
- Application: Tagout / Safety
- Front Legend: Notice
- Back Legend: Notice
- Product Weight: 0.06 lbs.
- Applications: Safety Tagout where superior environmental resistance is required

Master Lock®
Rotating Gate Valve Lockout
Safety Series®

- Outward/inward rotation allows for easier installation and storage
- Surrounds the valve operating handle to protect against accidental valve opening
- Unique patent-pending rotating design allows for easier installation in confined space applications
- Each size rotates into itself and nests into the next larger size to save space in safety tool boxes
- Center knockout can be removed for rising stem gate valves
- Multiple workers can apply their personal safety locks
- Complete with high-visibility permanent safety labels (English, French & Spanish) that can be written-on to identify the responsible person, then erased for the next job
- Tough, lightweight, dielectric Xenoy® thermoplastic bodies withstand chemicals
- Perform effectively in extreme conditions (temperature range -50°F (-46°C) to 350°F (177°C)

Master Lock®
Set of Grip Tight Circuit Breakers
Safety Series®

- Set of one 491B and one 493B Grip Tight™ circuit breaker lockouts
- Grip Tight circuit breakers work with simple thumb turn and clamping handle
- Patent-pending innovative design effectively lockouts out all styles of breaker toggles
- Grip Tight combines great strength with universal fit
- 491B fits tall and wide breaker toggles
- 493B design fits standard height and tie-bar toggles
- Narrow profile permits side-by-side breaker lockout
- Compact devices are easy to carry and easy to store
- Devices accept all American Lock and Master Lock safety padlock shackles and lockout hasp diameters
- Durable construction with powder coated steel and reinforced polymer for operation in harsh environments

Compact Plug Prong
Safety Series™

- Patented plug lockout grips prongs of 110-120 volt plugs
- Fits two prong plugs with and without ground
- Use with your existing lockout padlocks or lockout hasps

Part #
S2005

Master Lock®
Lockout Statim
Safety Series™

- Safety Lockout Covered padlock station with 3 of the 410RES Zenex padlocks, keyed different.
- Exclusive lockable translucent cover protects contents from dust and grime, resilient poly carbonate material provides twice the heat resistance and quadruple the impact strength of typical stations.
- Station measures 12-1/4” high x 16” wide x 1-3/4” deep.

Part #
1482B

Master Lock®
Safety Lockout Hasp
For Up To 6 Locks
Safety Series™

- Tamper-resistant scissor-style steel lockout hasp
- Allows for lockout by up to 6 workers
- Compatible with Nos. 3, 410, 411 and 6835 safety lockout padlocks

Part #

Master Lock®
Safety Lockout Hasp
Safety Series™

- Lockout by multiple workers at each lockout point
- Attach device to energy disconnect switch
- Keeps equipment inoperative while repairs or adjustments are made
- Control cannot be turned on until last worker’s padlock is removed from hasp
- Spark resistant aluminum, dielectric plastic, dual jaw aluminum
- Dimensions are 2” X 4-7/8” with 1-1/2” inside jaw diameter, holds up to 6 padlocks

Part # 417

Master Lock®
Portable Lock Box
Latch Tight
Safety Series™

- Secure each lockout point on a piece of equipment with just one designated lock
- Each authorized employee locks one personal safety lock onto the box, removing them only when their work is complete
- Exclusive Latch Tight feature ensures that keys cannot be accessed until the last lock is removed
- Lockout message in English, Spanish and French communicates to all workers
- Up to 12 workers can apply their personal safety padlocks or hasps
- Ergonomic, easy-to-grip handle

Part # 498A

Master Lock®
Box Lockout Kit
Safety Series™

- Convenient storage and carrying box
- Includes three keyed-alike, safety padlocks includes one lockout hasp, on labeled lockout hasp and 12 tags
- Three 120 volt and two 240 volt circuit breaker lockouts and a wall switch lockout also included.

Part # 1457E410KA

Master Lock®
Pouch Lockout Kit
Safety Series™

- Convenient storage and carrying pouch
- Includes one bag of 12-497A one 7C5RED Circuit Breaker Padlock, one 420 Lockout hasp 491b grip tight lockout and two 492B grip tight devices.
- Includes one bag of 12-497A danger tags

Part # S1010E410
Traffic Safety
Caution & Barricade Safety Tape
Non-Adhesive Polyethylene Film

- The Barricade & Caution Safety Tapes were designed to protect & identify both above & below ground hazardous areas or elements such as construction sites & utility lines.
- Perfect for lane marking and hazard identification. Warns of physical hazards & dangers such as low pipes, ceilings, steps & doorways.
- When applied to trucks, forklifts & other vehicles, it increases danger awareness.
- Use these caution tapes to mark fire equipment and hazardous areas to comply with OSHA regulations 1910.22 and 1920.144.

GUARANTY AGREEMENT

In consideration of the extension of credit granted by Frank’s Supply Co. Inc., the undersigned hereby personally and unconditionally guaranty payment without presentment, demand or notice, of whatever amount the Applicant shall at any time be owing. This shall be an open, absolute, and continuing guaranty, and shall continue in force notwithstanding any change in the form of indebtedness or renewals or extensions granted by Frank’s Supply Co. Inc., unless and until expressly revoked by written notice via registered mail provided any such written revocation shall not affect any indebtedness contracted prior to receipt of the revocation. The undersigned further agrees to pay all costs of collection whether incurred pre- or post- judgement, including attorney’s fees and interest.

PROTO SAFETY SEMINARS, PRESENTED AT YOUR REQUEST:
• Hands-on demonstration of key tool categories.
• Pointers for choosing the right tool for the job.
• How to check tools for wear and damage.
• Recommendations for workplace safety.
• Examples of tool safety features.

TETHER & TRANSFER SYSTEM
The next generation of safety technology for positive control of hand tools at height, in work areas requiring foreign material exclusion (FME) or anywhere simple accidents become costly mistakes. Since a better tether system is a safer tether system, Sky-Hook™ provides secure tool transfers, a free range of motion, and positive tool control at the worksite.

Frank’s Supply provides safety training in a number of areas. These on site safety programs cover situations such as aerial platform certifications, hand tool safety, ladder and scaffolding safety, fall protection, power tool safety, etc. Frank’s factory trained safety coordinator provides a professional presentation to its customers.

**Aerial Platform Certification**
This training is to be general in nature since it covers safe operating instructions for all types of aerial platforms. The course consists of four key areas of learning - it covers responsibility, safety and operation, and finishes with practical hands-on operation. Trainees will receive aerial platform operation and safety certification cards at completion of course.

**Forklift Operator Certification**
Course covers both warehouse and rough terrain forklift operation. The course consists of two key areas of learning - the importance of forklift safety procedures and to demonstrate safe forklift operation. Trainees will receive a three year forklift certification by successfully completing written and hands-on forklift safety tests.

**Ladder Safety**
General training in the proper use of ladders to reduce the possibilities of injury on the job. The course consists of two key areas of learning - it covers using the wrong ladder and how to choose the right ladder; misusing or abusing climbing equipment and how to use and set-up a ladder correctly. Trainees will learn how to read and understand the decal codes on the ladder.

**Scaffold Safety**
General training in the proper erection of scaffolding and a review of OSHA’s Safety Standards for Scaffolds. The course consists of two key areas of learning - review of scaffold safety standards and what they mean. Plus trainees receive practical hands-on erection of scaffold. Trainees will become a "competent scaffold erector" for the construction jobsites.

Other training programs offered include: Hand Tool Safety, Skid Steer Safety and Operation, Powder Actuated Tool Certification, Power Tool Safety and Fall Protection.

Call Frank’s Supply for details on all training programs.
